# LEARN TO CHANGE THE WORLD

IT'S BEEN SAID THAT THOSE WHO STRIVE  
TO TEACH, MUST NEVER CEASE TO LEARN.

**WE COULDN'T AGREE MORE.**

Our graduate degrees and professional education programs explore every facet of education, from pre-k through college, in school and after school, and across the human lifespan. It's part of human nature to educate others, to teach the people around us how to do new things. But few people actually feel the calling to become an educator... And even fewer know how to do it correctly.

LEARNING HOW TO EDUCATE AND LEAD  
EDUCATIONAL INSTITUTIONS IS A SKILL  
THAT CAN BE NURTURED AND  
DEVELOPED OVER TIME.  
HERE'S WHERE WE COME IN.

**At Atlantis University's School of Education, we want to help you make an impact as a world class educator. We've developed programs with the purpose of deepening your knowledge, developing your professional skills, and enabling you to prepare for a career in education.**

## THE EDUCATIONAL LANDSCAPE IS CONSTANTLY EVOLVING.

These changes can be seen all across the country and across all educational levels. From preschool teachers to college professors, it seems like all educators can agree on this one thing... educators and administrators must stay up to date on the latest technologies and pedagogical methods in order to keep up with the rapidly changing state of education.

## OUR PROGRAMS FOSTER A STRONG SET OF ANALYTICAL, TECHNOLOGICAL, AND PERSONAL SKILLS.

We want to prepare leaders in education and help generate the knowledge to improve student opportunity, achievement and success. Our curriculums encompass a wide range of educational competencies... And since we want you to go out with a “bang”, the programs require a research experience as its final component.

## WE'VE SHOWN YOU WHAT WE CAN DO.

**IT'S NOW UP TO YOU TO MAKE THE NEXT MOVE.  
WILL WE BE SEEING YOU AROUND? WILL YOU  
JOIN US AT OUR SCHOOL OF EDUCATION?**

# GET TO KNOW

WHAT DO WE BRING TO THE TABLE FOR OUR IT STUDENTS?

## WHO

### OUR FACULTY

As we stated before, we love to show off our faculty members. Can you blame us, when we have professors of this calibre?!

This should go without saying, but the professors at our School of Education have some pretty big shoes to fill. After all, they themselves are the educators that will educate the educators of tomorrow. That's a lot of pressure... But don't worry, we can vouch that they're up for the task.

### THE FIVE W'S OF STUDYING BUSINESS AT AU

How do we know this? Well, all of them have years of teaching and administration experience under their belt. So they're the real deal. They're not just teaching you about the latest pedagogy methodologies because they read it in a book.

They're speaking from real life experience.

So if you have any questions, don't be afraid to ask them about it! They're not just here to make you take some tests. Our faculty members can give you all the professional advice you need in order to advance your career.

## WHAT

### A VALUABLE (AND PRACTICAL) DEGREE

Only at our Education School will you be able to find such a wide selection of programs and concentrations. Interested in Master in Education? Do you feel a calling for a Master in Education in Educational Technology?

Or maybe MS Education in Educational Leadership is more your style?

In any case: chances are that if you name it, we've got it.

# WHEN

## WHEN THE TIME IS RIGHT FOR YOU

We know that you're a busy person and that your time is valuable. In fact, graduate students are sometimes known for balancing a 9-to-5 job, their home life, and their studies all at the same time. So, if we gave you the chance to optimize the time it takes to complete your degree... Would you take us up on that offer?

At our School of Education, we structured our programs with your time in our mind. In fact, at AU your degree could take half as much time as the national average. That means that you might be able to complete your Master's Degree in Education in as little as 12 months... Maybe even less, if you've got valid, transferable credits!

# THE 5 W'S?

# WHERE

## A GLOBAL CAMPUS

In Atlantis University, we understand the pros and cons of online education... And we want it to be all about the pros without any of the cons. Over the course of many years, we have cultivated the best practices and we have redefined what it means to get a digital education. That has culminated in a service which we like to call our Global Campus.

But wait, what exactly is a Global Campus?! It's quite simple, actually. What this means is that we integrate the most advanced technology tools and resources as we can into our programs. As a result of this, you get the opportunity to take online classes if you want to, without missing out on the on-campus experience. No matter where you are located right now (or where life takes you), you'll be able to complete your courses and feel like you're right there in Miami with us.
