CAREER SERVICES

NEXT STEPS

“HEALTH” CAN MEAN SO MANY DIFFERENT THINGS, TO SO MANY DIFFERENT PEOPLE

The healthcare sector is one of the most valuable –and one of the most underappreciated– employment fields in American society. The dedicated professionals who look after the sick are the glue that holds our communities together.

The Atlantis School of Health has a tradition of preparing students to fill evolving healthcare roles as highly qualified professionals educated in direct care, management, health education and administration.

A GREAT MAN ONCE SAID:
“HE WHO HAS HEALTH HAS HOPE;
AND HE WHO HAS HOPE HAS
EVERYTHING...”

THAT'S WHY, HERE AT ATLANTIS UNIVERSITY, WE STRIVE TO PUT THE "CARE" BACK IN "HEALTHCARE".

We want to inspire the future generation of nursing professionals and healthcare leaders. Ones who won't only be care-takers, but also guiding forces in the industry. Ones who will have the courage to lead revolutionary change in hospitals, clinics, laboratories, nursing homes, and everywhere else.

HOW DO WE TRAIN TODAY'S HEALTHCARE PRACTITIONERS, WHILE ALSO PREPARING THE NEXT GENERATION OF PROFESSIONALS? **THAT'S EASY.**

Here at Atlantis, we accomplish that through specialized programs that take into account the many facets of health-care education: from communication, to legal knowledge, risk management, crisis intervention, and beyond.

NOW, WE EXTEND AN INVITATION TO YOU.

COME ALONG WITH US IN THIS JOURNEY,
AS WE EXPLORE **AU'S SCHOOL OF HEALTH** AND ALL
OF THE KNOWLEDGE THAT DEGREES HAVE TO OFFER.

GET TO KNOW

HERE'S WHY YOU SHOULD PURSUE A HEALTHCARE CAREER AT AU

THE ATLANTEAN ADVANTAGE

We might be biased, but we think that our School of Health is a pretty special place. It's an educational environment unlike anywhere else you've ever been...

AU approaches the idea of college education with a mindset that is different than most. There's a reason we consider ourselves "nonconformists", right?!

Our main objective is to offer a wide range of academic opportunities that are as practical as they are accessible. These are just a few of the benefits that we offer, that make us stand out from the rest:

- State-of-the-art tech tools.
- Innovative educational strategies.
- Immersive online programs.
- Degrees offered in English and Spanish.

OUR CORE BELIEFS

WHAT DO WE BRING TO THE TABLE FOR OUR IT STUDENTS?

MISSION:

We believe that we can foster a better society by taking care of our country's most vulnerable populations. We want to train the caretakers of the future and encourage them to develop their professional, as well as their personal skills.

VISION:

To provide multifaceted educational opportunities in health fields; always guided by the belief that healthcare services should be innovative, evidence-based, and diverse.

BRINGING THE **INDUSTRY'S TOP** THINKERS INTO THE CLASSROOM.

Trust us, the members of our faculty are truly pros. Our staff is built up of doctors, nurses, healthcare administrators and industry leaders who know what they're talking about. They come from the healthcare field, straight into our classrooms, to answer all the questions you could ever have about your future career.

**STILL READING?
STILL INTERESTED?
KEEP ON GOING FOR MORE.**

WHO

OUR FACULTY

It should come as no surprise that we consider our professors to be our most prized possessions. These educators usually have a decade's worth of experience in their respective fields and are still working professionals. Which means that they take time out of their busy schedules to dedicate themselves entirely to our students.

They don't do this because they feel like they have to. Instead, they do it because they're genuinely passionate about their craft. They have a deep, innate desire to guide a new generation of healthcare workers.

THE 5 W'S?

THE FIVE W'S OF STUDYING BUSINESS AT AU

No matter how intense our programs are, you'll never feel overwhelmed. Our educators will accompany you through every step of the way: through exams, group projects, networking workshops, and more. With their help, you'll achieve your personal and professional goals in no time.

WHAT

INDUSTRY-CENTRIC DEGREES.

At AU, we know how to balance the theory with the practice. Yes, you'll have to do a lot of reading and you'll have to take tests... And that's a good thing! After all, that's an essential part of the university experience. But you'll also get a chance to apply that knowledge into real-world scenarios. We frequently incorporate workshops and networking events into our curriculums. Meaning that you'll be able to carve out your place in the healthcare market, long before you graduate.

WHEN

WHEN THE TIME IS RIGHT FOR YOU

The journey towards higher education looks different for everybody... especially for non-conformists, as ourselves.

That's where the AU philosophy of Accelerated Learning comes in. We've designed our degrees with the belief that your time is valuable, and should never feel wasted. So why not make the most of it?

Our curriculums are structured with this in mind. As a result, completing your degree could take half as much time as the national average. So if you want to, you can earn an undergrad degree in 29 months or a graduate degree in 12 months... Even less, if you have credits you can transfer.

THE 5 W'S?

WHERE

A GLOBAL CAMPUS

When it comes to online education, we are pioneers. Long before it was the mainstream thing to do, we were perfecting the art of what a digital education looks like. That's what the AU Global Campus is all about.

We consider ourselves tech experts and we make sure to integrate as many technology tools as we can into our programs. That way, we give you the opportunity to take online classes at your own pace, but without ever compromising the on-campus experience. Whether you're in Miami, someplace else in Florida, somewhere in the US (or really, anywhere else), you'll always feel connected to the Atlantean experience.

THE HOW

...AND YOU DIDN'T THINK WE WOULD FORGET ABOUT THE "HOW", RIGHT?

THIS IS HOW WE OFFER A VALUABLE EDUCATION:

BY GIVING YOU THREE GRADUATE DEGREES TO PICK FROM.
WE'RE 100% SURE THAT AT LEAST ONE OF THESE PROGRAMS
WILL CALL YOUR NAME.

The School of Health has programs across two educational levels: undergraduate and graduate degrees. Whether you're an incoming freshman getting your first degree (or a professional looking for a new one to add to your resumé), we're here to support your healthcare journey.

CHOOSE THE LEVEL THAT WORKS BEST FOR YOU AND THEN WE'LL TAKE CARE OF THE REST.

UNDERGRADUATE STUDIES

THE HOW

BACHELOR'S DEGREE IN NURSING (RN TO BSN):

LET'S SEE IF YOU FIT THIS PROFILE:

Are you currently an active, registered nurse with an Associate Degree in nursing? Are you ready to hone in on the skills that you already have and take them to the next level? If so, this program is calling out your name. Here, you'll be taught how to understand the intricate issues surrounding patient care, so that you're able to make a positive impact in every step of their health journey.

GRADUATE STUDIES

MASTER'S DEGREE IN HEALTHCARE MANAGEMENT:

Advanced healthcare practices and comprehensive management techniques come together in one single place to create this amazing degree. This intensive graduate program will help you maximize your potential and train you to hold middle- and upper-level positions in a variety of health organizations.

MASTER OF SCIENCE IN NURSING (MSN):

PLAN, ORGANIZE, LEAD, CONTROL, AND EVALUATE.

You'll discover all this (and how to apply it to healthcare organizations specifically) through this multifaceted degree. You'll graduate with a newfound sense of confidence in your ability to spearhead quality-improvement initiatives in any type of healthcare organization.

MSN IN HEALTH INFORMATICS:

LET'S BE REAL: YOU WON'T FIND A PROGRAM QUITE LIKE THIS ANYWHERE ELSE.

That's because AU's Health Informatics concentration will show you how to leverage technology and data analytics tools to your advantage as a practitioner. That way, you can improve the quality, safety, outcomes, and cost-effectiveness of healthcare delivery.

MSN IN NURSING EDUCATION:

NOW THAT'S WHAT WE CALL A "DOUBLE-WHAMMY"!

If nursing and education are both your passions, why settle for just one? Make the most of both and use this program to your advantage. You'll gain all the competencies you could ever need in order to become the greatest academic nurse educator around.

MSN IN NURSING LEADERSHIP ADMINISTRATION IN HEALTHCARE SYSTEMS:

We know this concentration is a total mouthful, but trust us when we say that it's 100% worth it. Where else would you ever find such a varied degree, after all? Learn to lead, shape policies, influence patient outcomes, and deliver the Best Care Possible.

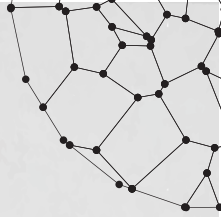

MSN IN PUBLIC HEALTH NURSING:

"INTEGRATION" IS THE NAME OF THE GAME AROUND HERE.

This program's main objective is making sure that you graduate with the ability to integrate advanced nursing practices with public health perspectives that are population-based. Does this sound like your calling? If so, don't wait any longer to enroll!

CAREER SERVICES

JOB HUNTING DOESN'T HAVE TO FEEL DAUNTING.

Atlantis University gives you access to a high quality education, but that's only the first step. What comes next, when you actually have to enter the job market? Don't worry. The AU Career Center (and its wide range of placement services) will come to the rescue.

HOW TO GET FROM "STUDENT" TO "HEALTHCARE PROFESSIONAL"

Our career services will be there by your side, through every single step of your Atlantean journey: from the day you arrive as a student, to the day you graduate as a healthcare professional.

This is how the AU Career Center can help you in the road towards employment:

- We can review and revise your resumé.
- We can set up mock interviews (to get you ready for the real thing).
- We can give you the best tips and tricks on how to apply to internships or job opportunities.

...And these are just a few examples. The experts over at our career center can do all of this for you and much more. Just let us know what you need help with, and we'll do our best to lend a helping hand.

WHAT'S **#TRENDING** IN THE HEALTHCARE INDUSTRY RIGHT NOW?

WHAT'S THE MARKET OUTLOOK
FOR THE NEXT 5, 10, OR 15 YEARS?

WHAT KIND OF JOBS SHOULD
RECENT COLLEGE GRADS BE
APPLYING TO RIGHT NOW?

DID YOU KNOW THAT...

- 
- ...Healthcare professionals earn an average of **\$70,000** a year?
 - ...Employment in this field has grown by **15% in recent years**, adding **2.4 million new jobs** to the market?
 - ...One common healthcare career is becoming a registered nurse; but the field also includes other jobs such as home health aides, occupational therapy assistants, and medical transcriptionists?

**WHAT
COMES
NEXT:**

**WAIT, YOU MADE IT
THIS FAR?! FANTASTIC!**

**WE'RE COUNTING DOWN THE DAYS UNTIL
WE CAN MEET IN PERSON AND WELCOME YOU
AS AN ATLANTIAN.**

IF YOU'RE HERE, THAT MEANS THAT YOU'RE READY TO TAKE THE NEXT STEP IN YOUR EDUCATIONAL CAREER.

SO HERE'S A SUMMARY OF WHAT OUR ADMISSIONS PROCESS LOOKS LIKE. IT'S JUST 5 EASY STEPS:

- 1** **Complete our Admission's Application.**
Make sure to double-check the list of required documents that you'll be needing in order to complete your application.
- 2** Set up a friendly phone (or Zoom) interview with us. That way we can get to know each other better. You can also call before submitting your application, in case you have any questions.
- 3** Wait for your admission's notice.
- 4** Set up a meeting with our Financial Aid Department. There might be grants and extra benefits that you could potentially qualify for.
- 5** **Last but not least: Celebrate your arrival!**

WE SALUTE YOU AS A NON-COMFORMIST.
WE CONGRATULATE YOU AS A NEW ATLANTHEAN.
WE WELCOME YOU HOME!
