WHAT'S UP WITH IT?

INFORMATION TECHNOLOGY IS NOTHING NEW

In fact, ever since humans have been able to write, we've been obsessed with storing and communicating information with each other...

And that's precisely what makes Information Technology (IT) such an interesting field of study. It has been around forever; and yet, it is constantly evolving as old technologies disappear and new ones arise.

So, if you're interested in the IT industry, what can you do to stay updated on the latest tech innovations? How do you make sure you don't fall behind?

(That's a rhetorical question, of course. This is where we come in).

Here at AU's School of Information Technology, we offer a wide range of educational programs. These diplomas and degrees are spearheaded by industry leaders who will mentor you through every step of the way.

SOME OF THE THINGS THAT HELP US STAND OUT FROM THE REST IS THE FACT THAT WE HAVE A CAREER-FOCUSED MENTALITY AND ACCELERATED LEARNING OFFERINGS.

What this means for you, is that you'll have access to all the tools you need in order to step up your IT game. Are you interested in adding industry certifications to your resumé? We can help you with that.

Azure Fundamentals, Network+, Linux+, and more... We can help you advance your tech career, once certificate at a time.

× × × GET TO KNOW

IT DEGREES MENTORED BY THE INDUSTRY LEADERS OF TODAY,
FOR THE INDUSTRY LEADERS OF TOMORROW.

THE ATLANTEAN ADVANTAGE

There are certain things you'll find here, that you simply won't find anywhere else. For example, we believe in a **360° approach to higher education**. As a result, we offer a wide array of benefits that will help you make the most of whichever degree you choose to complete.

- State-of-the art tech tools.
- Innovative educational strategies.
- Immersive online programs.
- Degrees offered in English and Spanish.

ALWAYS AT THE FOREFRONT OF TECH

WHAT DO WE BRING TO THE TABLE FOR OUR IT STUDENTS?

MISSION:

We believe that new technologies are affecting the lives of people around the world. As a result, we have a responsibility to equip our students with the STEM knowledge that they need in order to excel in the tech industries

VISION:

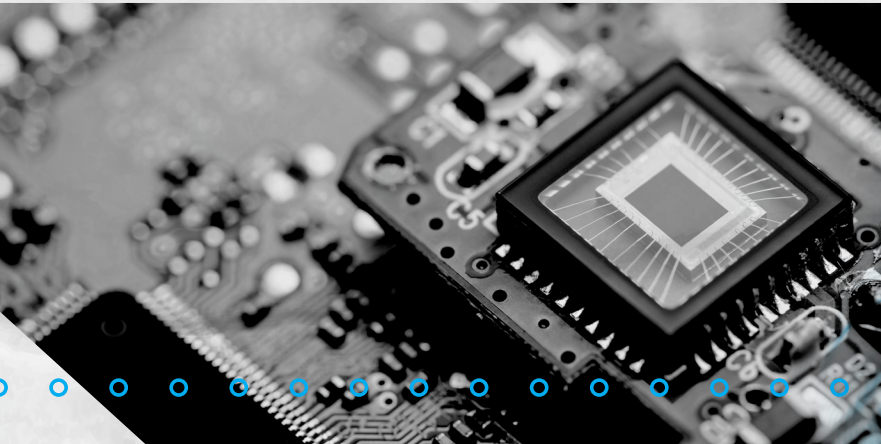

To continuously evolve our School and the programs that it offers, so we are always at the forefront of education in cloud computing, cybersecurity, networking, coding, big data, and more.

WE KNOW THE TECH INDUSTRY LIKE THE PALM OF OUR HAND...

...So of course, we know the importance and relevance of industry certifications. These “certs” are the ones that will look great on your resumé and the ones that will help you stand out in a sea of other college graduates.

That's the reason why our curriculums include exam preparedness for certifications such as:

- Network+ (by CompTIA)
- CCNA (by Cisco)
- Azure Fundamentals (by Microsoft)
- Linux+
- And more...

STILL READING? STILL INTERESTED? KEEP ON GOING FOR MORE.

THE 5 W'S?

THE FIVE W'S OF STUDYING BUSINESS AT AU

WHO

OUR FACULTY

We proudly show off our faculty every chance we get. Our staff members are some of the most talented industry experts, not just in the nation, but from all around the world. They are dedicated to helping you, as a student, the personalized attention that you need in order to complete both your academic as well as your personal goals.

These IT professionals have decades of hands-on experience (and networking) within the field, so they are committed to helping you reach your fullest potential in the tech labor market.

WHAT

IN-DEMAND DIPLOMAS AND DEGREES

We believe in striking a balance hittin' the books and preparing for the real world. At AU, we want to show you the theory, but also give you the chance to put that theory into practice. So we don't just stay inside the classroom: we give you practical opportunities (through workshops and networking events) to thrive within the IT industry, even before you graduate.

WHEN

WHEN THE TIME IS RIGHT FOR YOU

AU understands what other institutions don't: that not everyone's higher education journey is the same. In fact, no two students follow the exact same path when completing their degrees.

With our Accelerated Learning philosophy, the time that it takes to complete your degree could easily be half the national average. That means that you could earn your Bachelor's in 29 months or your Master's in as little as 12 months— even less, if you have transferable credits.

THE 5 W'S?

WHERE

A GLOBAL CAMPUS

Believe us: whenever we say that AU offers a well-rounded, global campus experience, we mean it. We have perfected the “art” of online education. We maximize all of the technological tools at our disposal to make sure that you can take your classes online (without losing the on-campus experience) and stay connected wherever that life takes you.

Through our Global Campus, you can take advantage of all the same resources that you would find on our Miami school grounds. So if you can't come to us, don't worry. We'll meet you where you are.

THE 5 W'S?

THE HOW

...AND YOU DIDN'T THINK WE WOULD FORGET ABOUT THE "HOW", RIGHT?

THIS IS HOW WE OFFER A VALUABLE EDUCATION:

BY HAVING A HUGE CATALOG WITH ALL SORTS OF DEGREES AND CONCENTRATIONS IN ALL KINDS OF LABOR MARKETS.

NO SUBJECT IS TOO NICHE; IF YOU'RE PASSIONATE ABOUT IT, WE PROBABLY HAVE A BUSINESS DEGREE FOR IT.

Oh, and don't worry about feeling like a rookie. We have educational programs across all levels. Whether you're a beginner student who wants to get a first degree –or a seasoned professional looking to expand your career choices with an additional certification– we're here to support you. Choose the level that works best for you and we'll do the rest.

DIPLOMA PROGRAM

THE HOW

MASTER THE NETWORK:

NOW MORE THAN EVER, IT PROFESSIONS ARE BECOMING SOME OF THE HOTTEST, MOST IN-DEMAND CAREERS. WHY WOULD YOU WANT TO MISS OUT ON AN OPPORTUNITY LIKE THAT?! Enroll in our Network Operations Diploma (we like to call it NOP, for short) and earn your certs in Network+ (by CompTIA) and CCNA (by Cisco). All while furthering your knowledge in Amazon Web Services and Azure networking environments.

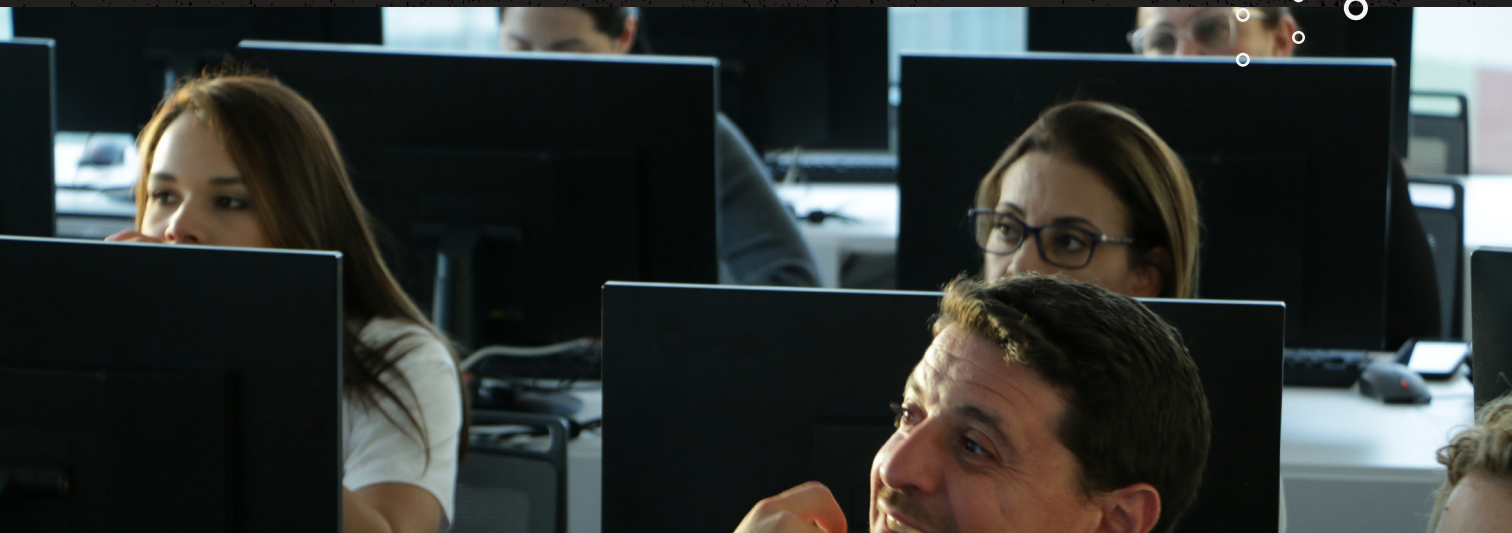

ADVANCE YOUR CLOUD CAREER:

Our Enterprise Cloud Professional program (or ECP, as we like to call it) is an intensive, part-time program. It lasts 5 months and prepares students for certs like Azure Fundamentals; Network+; Linux; Amazon Web Services; Solutions Associate; and Microsoft Office 365.

COMPUTER INFORMATION TECHNOLOGY DIPLOMA:

IS THERE A NETWORK ADMINISTRATOR POSITION OUT THERE THAT SEEMS TO BE CALLING YOUR NAME?

Perhaps becoming a Data Communication Manager or a Communication Specialist is more your style... Whichever one you strive to achieve, you'll be one step closer once you complete our advanced and highly specialized CIT program.

GRADUATE THE HOW STUDIES

ASSOCIATE'S IN INFORMATION TECHNOLOGY:

HERE'S A SECRET. WANT TO DISCOVER HOW TO GET YOUR FOOT IN THE DOOR OF THE COMPUTER SCIENCE INDUSTRIES?

Complete this program and show off all of your new set of high-specialized tech skills. We'll empower you to evolve into a Cisco networking technician, a server administrator, a Microsoft specialist, or anything else that you aspire to become within the world of IT. The sky's the limit!

BACHELOR'S IN ARTIFICIAL INTELLIGENCE:

DO YOU DREAM OF CREATING A COMPLEX AI SYSTEM, WORTHY OF A SCIENCE FICTION NOVEL? YOU'VE COME TO THE RIGHT PLACE, THEN.

Because with this degree, you get the inside scoop on how to design smart agents to solve real-world problems. This includes search, gaming, machine learning, logic, and constraint satisfaction problems.

BACHELOR'S IN CYBER INTELLIGENCE:

HAVE YOU EVER THOUGHT ABOUT THE ETHICAL SIDE OF TECHNOLOGY? WE CERTAINLY HAVE.

That's why AU offers this in-depth program aimed at educating you on things like how to respond to cyber-attack; how to identify vulnerabilities in systems; and most importantly, how to protect and defend those systems.

BACHELOR'S IN DATA ANALYTICS:

THE TECHNOLOGICAL REVOLUTION IS ON THE HORIZON AND YOU WOULDN'T WANT TO MISS OUT, RIGHT?

Enroll in our Network Operations Diploma (we like to call it NOP, for short) and earn your certs in Network+ (by CompTIA) and CCNA (by Cisco). All while furthering your knowledge in Amazon Web Services and Azure networking environments.

BACHELOR'S IN SOFTWARE DEVELOPMENT:

LET'S GET STRAIGHT TO THE POINT. HERE'S WHAT IT MEANS TO CHOOSE A SOFTWARE DEVELOPMENT CONCENTRATION AT AU.

Enroll in our Network Operations Diploma (we like to call it NOP, for short) and earn your certs in Network+ (by CompTIA) and CCNA (by Cisco). All while furthering your knowledge in Amazon Web Services and Azure networking environments.

GRADUATE STUDIES

THE HOW

MASTER'S IN CYBERSECURITY: NEVER LET CYBERCRIMES TAKE YOU BY SURPRISE.

Make sure you always know how to develop, implement, and manage secure information systems. In this degree, you'll be provided with theoretical, practical, and applied skills in computer-based information systems. Basically, all the ingredients you need to take cyberattacks head-on.

MASTER'S INFORMATION TECHNOLOGY: THIS INTENSE GRADUATE DEGREE PROGRAM IS NOT FOR THE FAINT OF HEART.

But we're not worried, because if you're here, we know that you are up for the challenge. Dare yourself to rise above the rest. Become not just an innovator; become a top performer in a new era of technology. This immersive degree is also supplemented by biweekly workshops on trending tech topics. What more could you ask for?

DUAL DEGREE

**OH, DID YOU THINK
WE WERE DONE? NOT YET!**

Did you know that AU provides a unique educational opportunities known as a Dual Degree? This program brings together two of our prestigious schools –the School of Business and the School of IT– under one umbrella. Basically, it's the best 2-for-1 deal you'll ever get.

WE'RE TALKING ABOUT A MASTER'S IN BUSINESS ADMINISTRATION + A MASTER'S IN INFORMATION TECHNOLOGY.

It is designed with both IT and business professionals in mind. It's an educational opportunity for students who want the best of both worlds: a mix of expertise in computer technologies and business entrepreneurship as well.

Through this innovative, accelerated program you can quite literally get two degrees for the price (and time!) of one. It's an intensive 20-month-long program– but hey, we promise that it will all be worth it in the end.

(AND WE'RE GONNA BET YOU DIDN'T SEE THIS ONE COMING)

CAREER SERVICES

YOUR DREAM IT CAREER IS OUT THERE WAITING FOR YOU

Specialized technology programs, leadership training, and in-demand certs isn't all that **Atlantis University** offers. After all, we know better than anyone that studying in the classroom will only get you halfway there.

At our dedicated **AU Career Center**, we go the extra mile in order to help you land a job once you graduate.

YOUR PATH TO SUCCESS

Our placement services will play an active role in your Atlantean journey. Maybe you're trying to get ready for a job or internship interview. Or perhaps you want to spice up your networking skills. Whatever it is that you need in order to advance your path towards employment, the AU Career Center is here to help.

WHAT DOES THE CURRENT IT LANDSCAPE LOOK LIKE RIGHT NOW

WHAT WILL IT LOOK LIKE IN THE FUTURE?

WHAT KIND OF SKILLS ARE EMPLOYERS ON THE LOOKOUT FOR?

DID YOU KNOW THAT...

- ...The tech industry in the US alone is worth over **\$1.6 trillion**? Yeah. That's not even a typo: that's "trillion" with a "T".
- ...According to industry recruiters, **being creative and ambitious is just as important** (if not more important) than knowing programming languages like Java?
- ...The average salary for cloud computing occupations is nearly **double the national average**?
- ...Some of the **most popular job opportunities** for students who graduate with an IT degree include Support Analysts, Quality Assurance Managers, Web Designers, and Network Administrators?

TAKING THE NEXT RIGHT STEPS

THAT WAS A WILD RIDE

**AND WE'RE GLAD THAT YOU MADE IT ALL THE
WAY THROUGH WITH US. BELIEVE IT OR NOT,
YOU'RE ONLY A FEW SHORT STEPS FROM
BECOMING THE ATLANTEAN YOU WERE ALWAYS
MEANT TO BE.**

YOU'RE IN THE FINAL STRETCH, SO DON'T LOOK BACK NOW!

HERE'S A QUICK LITTLE BREAKDOWN OF WHAT OUR ADMISSIONS PROCESS LOOKS LIKE, IN 6 EASY STEPS:

- 
- 1** **Complete our Admission's Application.**
Make sure to double-check the list of required documents that you'll be needing in order to complete your application.
 - 2** Set up a friendly phone (or Zoom) interview with us. That way we can get to know each other better. You can also call before submitting your application, in case you have any questions.
 - 3** Wait for your admission's notice.
 - 4** Set up a meeting with our Financial Aid Department. There might be grants and extra benefits that you could potentially qualify for.
 - 5** **Last but not least:** Celebrate your arrival!

**WE SALUTE YOU AS A NON-COMFORMIST.
WE CONGRATULATE YOU AS A NEW ATLANTHEAN.
WE WELCOME YOU HOME!**
