## VIOLENCE AGAINST WOMEN

### Violence Against Women – Definitions of:

Acts of sexual violence are serious problems on college and university campuses. Atlantis University prohibits the crimes of dating violence, domestic violence, sexual assault, and stalking. On March 7, 2013, President Obama signed the Violence Against Women Reauthorization Act of 2013 (VAWA) (Pub. Law 113-4). The HEA defines the new crime categories of domestic violence, dating violence, sexual assault, and stalking in accordance with section 40002(a) of the Violence Against Women Act of 1994 as follows:

1. **“Domestic violence”** means a “felony or misdemeanor crime of violence committed by—
  - A current or former spouse or intimate partner of the victim,
  - A person with whom the victim shares a child in common,
  - A person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner,
  - A person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies [under the VAWA],
  - Any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the jurisdiction”
  
2. **“Dating violence”** means “violence committed by a person –
  - Who is or has been in a social relationship of a romantic or intimate nature with the victim; and
  - Where the existence of such a relationship shall be determined based on a consideration of the following factors:
    - The length of the relationship;
    - The type of the relationship; and
    - The frequency of interactions between the people involved in the relationship.”
  
3. **“Sexual Assault”** means any unwanted and nonconsensual sexual contact that involved either sexual battery or rape; where “sexual battery” is defined as any unwanted and nonconsensual sexual contact that involves forced touching of a sexual nature, not involving penetration. This could include forced kissing, touching, grabbing, or fondling of sexual body parts. And “Rape” is defined as any unwanted and nonconsensual sexual contact that involves a penetrative act, including oral sex, anal sex, sexual intercourse, or sexual penetration with a finger or object. Sexual battery and rape are mutually exclusive categories (e.g., a victim or a sexual victimization incident would be counted as one or the other, not both). In all instances, the definition of “consent and nonconsensual”, in reference to sexual activity, refers to sexual contact that the person did not want to happen = unwanted sexual contact.

- a. **“Consent”** means intelligent, knowing, and voluntary consent and does not include coerced submission. “Consent” shall not be deemed or construed to mean the failure by the alleged victim to offer physical resistance to the offender. Florida Statutes § 794.011.
4. **“Stalking”** means engaging in a course of conduct directed at a specific person that would cause a reasonable person to –
- Fear for his or her safety or the safety of others; or
  - Suffer substantial emotional distress.

**If you believe you are a victim of any of these situations you can and should seek out help and assistance from the following agencies:**

**CONTACT INFORMATION:**

Local law enforcement has full authority to take any actions on our campus it deems reasonable.	
Who to contact to report an incident at the Institution?	Director of Operations Financial Aid Director / Title IX Coordinator Compliance Director
Local Law enforcement agency to report an incident that occurred off campus	Call 911
List agencies and contacts in your local area that can provide assistance to anyone who believes they are a victim and might need assistance.	Call 911

Atlantis University has a zero tolerance policy regarding sexual assaults. The FBI's National Incident-Based Reporting System (NIBRS) edition of the UCR defines a sex offense as any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent. Any student or employee engaging in a sexual assault will be immediately removed from campus. The incident will also be reported to law enforcement. For sexual assaults that occur on campus or involve one of our students report a sexual assault (which can be done confidentially) call 911 immediately. After 911 contact the school director and report the crime. It is important to always preserve evidence for the proof of a criminal offense.

The Institution does not have campus law enforcement but does have on-campus staff trained on issues related to dating violence, domestic violence, sexual assault, and stalking. Local law enforcement has full authority to take any actions on our campus facilities if it deems it reasonable. The Police Department offers sexual assault education and information programs upon request. A victim of sexual assault should immediately go to a hospital for medical evaluation and or mental health counseling. Upon a report of sexual assault, Atlantis University will obtain a written statement from the accused and accuser, and the local authorities on whether the offense occurred on-campus or off-

campus. The institution will provide written explanation to the victim on how to proceed – including his/her rights and options.

### **Procedures for Disciplinary Proceedings**

The Clery Act requires the following crimes to be reported only if an arrest or a referral for disciplinary action is made.

1. Weapons Violations
2. Drug Abuse Violations
3. Liquor Law Violations

A referral for disciplinary action means the referral of any person to any campus official who initiates a disciplinary action of which a record is kept and which may result in the imposition of a sanction.

Campus security authorities do not report arrests. Since arrests are made only by the police, they are already known to the police. Campus security authorities report referrals for disciplinary action, unless these referrals come from the Police and Public Safety Department

In all instances, Atlantis University is committed to providing a prompt, fair, and impartial process from the initial investigation to the final result for an institutional disciplinary proceeding. Disciplinary proceedings are in place for both students and employees. All proceedings, steps, and decision making processes will conform to all relevant statutes, regulations, personnel policies, and regulations and collective bargaining agreements. All disciplinary proceedings will be conducted in a manner that:

1. Are conducted by officials who, at a minimum, receive annual training on the issues related to dating violence, domestic violence, sexual assault, and stalking and on how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability.
2. Is consistent with the University policies and transparent to the accuser and the accused
3. Should include timely notice of meetings at which the accuser or accused, or both, may be present
4. Provide the same opportunity to both the accused and accuser and/or their representative to be present during any disciplinary proceeding, including the opportunity to be represented by the advisor of their choice.
5. Provides timely and equal access to the accuser, the accused and appropriate officials to any information that will be used during informal and formal disciplinary meetings and hearings

6. Timely inform in writing to both the accuser and accused of the outcome of any institutional disciplinary proceeding brought alleging a sex offense.
7. Impose sanctions following a final determination of an institutional proceeding regarding rape, acquaintance rape, or other forcible or non-forcible sex offenses. Information concerning registered sex offenders can be found at the Florida Department of Law Enforcement. In addition, recent postings are printed from the agency and placed on Atlantis University's bulletin boards located at the University's Rec Centers and Library.

The Clery Act requires the following crimes to be reported only if an arrest or a referral for disciplinary action is made.

1. Weapons Violations
2. Drug Abuse Violations
3. Liquor Law Violations

A referral for disciplinary action means the referral of any person to any campus official who initiates a disciplinary action of which a record is kept and which may result in the imposition of a sanction.

Campus security authorities do not report arrests. Since arrests are made only by the police, they are already known to the police. Campus security authorities report referrals for disciplinary action, unless these referrals come from the Police and Public Safety Department

### **Standards of Evidence**

The standard of evidence used during an institutional disciplinary hearing will be a "preponderance of the evidence" standard. This definition is the same as is used in most civil courts, and is not the standard of beyond a reasonable doubt. The preponderance of the evidence means that the offense "more likely than not" occurred—i.e., greater than 50% likelihood.

### **Sanctions**

The district may impose sanctions following a final determination of an institutional disciplinary proceeding regarding domestic violence, dating violence, sexual assault, and stalking. Possible sanctions include:

#### **For students:**

- reprimand
- loss of privileges

- restitution
- removal from class
- administrative hold
- suspension
- expulsion

**For employees:**

- suspension without pay
- demotion to a lower class in which qualified
- reduction of pay step within class, and/or
- dismissal

**Where or How to File a Disciplinary Complaint?**

Disciplinary complaints may be filed by following the University's Grievance Procedures posted on the University premises, and made available to all via the University Catalog posted on the AU website at:

<https://atlantisuniversity.edu/wp-content/uploads/2021/06/Catalog-2021.pdf>

Grievance Procedures are also available in the institutional Policies for Financial Aid.

Atlantis University will give guidance and provide the student with information and direction for pursuing a resolution. Students may address issues with the University's Compliance Officer: Ms. Carol Palacios, at [carol.palacios@atlantisuniversity.edu](mailto:carol.palacios@atlantisuniversity.edu), or via phone at (305) 377 8817 ext. 1017.

**Sexual Violence – Risk Reduction Tips**

Risk reduction tips can often take a victim-blaming tone, even unintentionally. With no intention to victim-blame, and with recognition that only those who commit sexual violence are responsible for those actions, these suggestions may nevertheless help you to reduce your risk experiencing a non-consensual sexual act. Below, suggestions to avoid committing a non-consensual sexual act are also offered:

- If you have limits, make them known as early as possible.
- Tell a sexual aggressor "NO" clearly and firmly.
- Try to remove yourself from the physical presence of a sexual aggressor.
- Find someone nearby and ask for help.
- Take affirmative responsibility for your alcohol intake/drug use and acknowledge that alcohol/drugs lower your sexual inhibitions and may make you vulnerable to someone who views a drunk or high person as a sexual opportunity.
- Take care of your friends and ask that they take care of you. A real friend will challenge you if you are about to make a mistake. Respect them when they do.

**Be an Engaged Bystander**

- The only person responsible for committing sexual assault is a perpetrator, but all of us have the ability to look out for each other's safety. Whether it's giving someone a safe

ride home or directly confronting a person who is engaging in inappropriate behavior, each of us can make a difference in ending sexual misconduct on campus and in our communities.

- Atlantis University encourages all members of the campus community to be engaged bystanders—persons who intervene in a positive way before, during, or after a situation or event in which they see or hear behaviors that promote sexual misconduct in any of its forms. A bystander is a person who is present when an event takes place but isn't directly involved. Bystanders might be present when sexual assault or abuse occurs—or they could witness the circumstances that lead up to these crimes.

Through positive bystander intervention you can make a difference in other people's lives.

## GENERAL INFORMATION ON CAMPUS SECURITY

1. Atlantis University employs campus security personnel and encourages both its employees and students to immediately report suspected criminal activity or other emergencies to the nearest available campus security officer, institutional official and/or in the event of emergency to directly contact local law enforcement or other emergency response agencies by dialing (911).
2. All students and employees are encouraged to report any crime or emergency to their institutional official promptly, can be assisted by institutional officials to contact law enforcement authorities, or can choose to decline to notify local authorities. If a student or employee wishes to report a crime on a voluntary or confidential basis, the institutional official will be prepared to record and report the crime, but not the name of the informant. The student or employee may, in order to maintain confidentiality, submit the information in writing to his/her institutional official without signature. If the student wishes not to maintain confidentiality, the student will contact his/her professor or University official who in turn will contact the nearest supervisor or authority to report criminal actions or emergencies to the appropriate agency by calling (911).

Preparation for the Annual Disclosure of Crime Statistics report is obtained by the institution's Office of Compliance and Financial Aid Department, who contact the appropriate Police Department Districts for statistics and the institution's "Daily Incident Log", and then records those statistics.

If/When a member of the University community (student, faculty, staff) has an order of protection, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court, that is known by the institution; the institution will maintain appropriate measures to accommodate the victim, maintain confidentiality to protect him/her, and implement measures to avoid contact between the victim and the offender.

3. Only students, employees and other parties having business with this institution should be on institutional property. Visitors must sign in at the entrance and identify their purpose of visit, the person to be visited, and register their time in and out of the building. The visitor must also wear a visitor's badge while on campus. All rear access doors leading to the campus are closed and locked during evening hours starting at 6:00pm. When the school closes for the night, the school's official or supervisor will inspect the school to see that it is empty and then set the alarms and then lock down campus facilities. Other individuals present on institutional property at any time without the express permission of the appropriate institutional official(s) shall be viewed as trespassing and may as such be subject to a fine and/or arrest. In addition, students and employees present on institutional property during periods of non-operation without the express permission of the appropriate institutional official(s) shall also be viewed as trespassing and may also be subject to a fine and/or arrest.
4. Current policies concerning campus law enforcement are as follows:
  - a) The Institution does not have campus law enforcement. Campus officials have no powers of arrest other than the Citizens Arrest Law, and are required in the event of a crime or emergency to call the correct agency or dial (911) for the police and emergency services. The Citizens Arrest Law will be invoked only as a last resource, and after all other possibilities have been explored. Local law enforcement has full authority to take any actions on our campus it deems reasonable.
  - b) Employees shall contact their immediate or nearest ranking supervisor to report any criminal action or emergency to the appropriate agency by calling (911). If possible, in the interim, institutional officials shall attempt to non-violently deal with the crime or emergency with the appropriate agency on campus. Individual discretion must be used; as undue risk should not be taken.
  - c) The institution currently has no procedures for encouraging or facilitating pastoral or professional counseling (mental health or otherwise), other than the student or employee is encouraged to seek such aid.
5. Information on Risk Reduction:
  - a) Atlantis University offers regularly scheduled crime awareness and prevention programs during orientation and before the start of an academic program (at the beginning of every term). Information is also available on request at the institution's website.
- e) Information regarding any crimes committed on campus will be available and posted in a conspicuous place within two (2) business days after the reporting of the crime and will be available for sixty (60) business days during normal business hours, unless the disclosure is prohibited by law, would jeopardize the confidentiality of the victim, or an ongoing criminal investigation, the safety of an individual, cause a suspect to flee evade detection: or result in the destruction of evidence. Once the reason for the lack of disclosure is no longer in force, the institution must disclose the information. If there is a request for information that is older than sixty 60 days, that information must be made available within two (2) business days of the request.
6. All incidents are recorded in the Institutions "Daily Incident Log" located on campus at the Office of the President. The log includes the date, time, location, incident reported, and disposition of incident and the name of the person who took the report. 10. Sexual assaults (criminal offences) on campus will be reported immediately to the institution's official, who will report it to (911) emergency and police units. The person who was victimized will be encouraged to seek counseling at a rape crisis center and to maintain all physical evidence until such a time as that person can be properly transported to a hospital or rape crisis center for proper treatment. Atlantis University has zero tolerance of such assault; the violation of this policy by students, faculty, or employees may result in expulsion, while investigations are being followed, termination and/or arrest.
11. The Institution encourages all students and employees to be responsible for their own security and the security of others. Please report any known criminal offenses occurring on campus to the school administration.

Who to contact to report an incident at the Institution	Director of Operations Ext 1004
Local Law enforcement agency to report an incident that occurred off campus	Call 911

<p>List agencies and contacts in your local area that can provide assistance to anyone who believes they are a victim and might need assistance.</p>	<p>Call 911</p>
--	-----------------

## **GENERAL EMERGENCY PROCEDURES**

### **Who to Contact**

All employees are expected to be familiar with and to follow procedures outlined in the Atlantis University Critical Response Plan. In the case of an emergency or immediate or perceived threat toward the students and/or employees, or immediate or perceived threat toward any other person on the school premises, the employee is authorized to make an emergency call to 911. Faculty and Instructors, and/or staff members should remain in the room with their students if they are notified of a possible emergency. As soon as it is reasonably possible, the Administration should be notified of the threat. To notify Administration or the University Officials, students/faculty/staff may use the Emergency Contact button, or emergency phones, or dial the extensions – 1004 Director of Operations, 1005 FA Director, 1017 Compliance Officer.

### **Medical Attention**

Anything requiring more than minor attention is to be referred to the local hospital. Except in cases of severe illness or medical emergencies, students are considered mature enough to seek appropriate relief such as returning home, visiting the restroom, or seeking medical help.

## **PERSONAL RESPONSIBILITY FOR SAFETY**

No safety rule is a complete substitute for common sense, nor can safety rules be devised to cover every situation you experience. For these reasons, good judgment must be used in every situation. Each person is responsible for the following:

### **Individual Responsibility**

Follow the approved practices and procedures or standards which apply, on any work you perform for the school.

Use only the appropriate protective equipment and devices. Use such equipment or devices whenever the hazard justifies their use or when so instructed by your supervisor.

It is the responsibility of everyone to make frequent inspections of tools and other equipment used to make sure such tools and equipment are in good physical condition.

Report to your Supervisor/Instructor any condition which might injure any person or damage any property. The hazard should also be pointed out to others exposed to it in order to correct or avoid it before an accident occurs.

Any injury which occurs at the University, no matter how slight, or any accident that causes damage to property shall be reported immediately to the University President. All injuries and accidents should be reported to the Supervisor/Instructor by the end of the day.

If anyone observes another who is about to endanger themselves, another person, or property while at the University, they should intervene immediately in such a way as to not endanger themselves.

Alcoholic beverages are not allowed on University property and use of such is prohibited. No one is to report for work or class evidencing any effects of alcoholic consumption.

Controlled substances, such as marijuana and cocaine, are illegal by State and Federal law. Their use and possession are prohibited on University property.

Liquids such as water or oil, excessive dust/dirt, or any other debris spilled on floors represent serious slipping hazards and should be cleaned up immediately upon observation.

### **Accident Investigation and Reporting**

Anyone who suffers an injury during school shall promptly report such injury to the Supervisor/ Instructor no later than end of the period on the day in which the injury occurred. Every accident shall be investigated to determine the cause and the steps needed to prevent a recurrence. It shall be the responsibility of the Supervisor/Instructor to obtain the complete and detailed facts of the accident as soon as possible after it occurs and to see that the required reports are made to the Administration.

### **Firearms**

Firearms, ammunition, explosives or other weapons are prohibited on University property. Exceptions to this policy are limited to the following instances:

- Law enforcement agencies in performance of their normal duties may carry firearms on School property

### **Good Housekeeping**

Good Housekeeping is essential to safe operation. It will result in fewer accidents and will reduce fire hazards. Oil and chemical spills should be cleaned up promptly to eliminate slipping and fire hazards. All work areas must be kept free of tools, materials, draped

hoses, extension cords, and other objects which create hazards. Cleaning up the area where you are working is part of the job. A job is not completed until the area is cleaned up.

## FIRE PREVENTION AND SECURITY

### Fire Prevention

Everyone should exercise good judgment and conduct themselves in a manner that would prevent fires while on University property.

No one should smoke in areas where “No Smoking” signs are posted, or where hazard from smoking exists.

If a fire should occur, contact your supervisor/instructor or the University President.

Stay calm. If the fire is small, select the proper extinguisher and attack the fire (if this can be done safely).

The following chart describes the different types of fires normally encountered and the proper extinguisher to use in each case.

TYPES OF FIRES	TYPES OF EXTINGUISHER AND AGENT
Ordinary Combustible Materials Such As Paper, Wood, and Trash	Water (Preferred) And Multi-purpose
Flammable Liquid And Gases such As Gasoline, Lubricating Oils and Natural Gas	Dry Chemical(Preferred) And Carbon Dioxide
Electrical such as Electronic Instruments And Switchgear Installations	Carbon dioxide (Preferred) And Dry Chemical

### **Storage of Flammable Liquids**

Metal containers and/or safety cans equipped with flame arresters and spring actuated caps should be used for the storage and handling of all flammable liquids with a flashpoint of less than 100-degree F

## **SOLVENTS, CHEMICALS & CHEMICAL CLEANING, WATER TREATMENT**

### **Rule**

All chemicals and solvents are treated as potential hazards from initial delivery to ultimate use and require the use of safe practices at all times.

Anyone handling flammable liquids or chemicals of any type should wear appropriate protective clothing and will comply with industry safe practices and the safety instructions on the container label in regards to both the use and storage of these materials.

Chemicals and materials with toxic fumes are to be used only in well-ventilated areas.

### **Responsibility**

It is the responsibility of everyone to be aware of the hazards related to the use of solvents, chemical cleaning materials, and other chemicals and to enforce the rules related to their use.

Hazards to be considered when using solvents, chemical cleaning materials, and other chemicals are:

- Contact with a hazardous material can cause skin rash or dermatitis, corrosive burns or eye damage.
- Potential explosive or fire hazard.
- The danger of ingestion of a poisonous, corrosive, or hazardous substance through the mouth or absorbed through the skin.
- The inhalation of a volatile solvent, gas or toxic dust which may produce asphyxiation, intoxication, or damage to mucous membrane and internal organs.

### **First Aid**

First aid procedures vary depending on the chemical nature of the materials in question. Follow the instructions on the container label.

In the event that a person should come in contact with solvent or chemicals in the eyes or on the skin, the affected area should be irrigated for a minimum of fifteen (15) minutes. If anyone ingests chemical materials or is splashed with a hazardous material and irrigation facilities are not available, they should immediately be referred to a hospital emergency room.

## **SEVERE WEATHER**

### **Tornado**

If (in the judgment of the University President or administrator in charge) the threat of impending danger warrants it, the following actions may be taken:

- Dismissal of all classes and assembly of students and employees into interior hallways and away from glass windows, doors and partitions.
- Everyone should remain in these “safe” areas until in the opinion of the University President or Executive in charge, the threat of danger has past.
- If the tornado or destructive wind strikes the building, everyone should sit on the floor, with backs against the wall, their heads between their knees, and their hands clasped over the backs of their heads until all danger is past.

### **Flooding**

Because of the elevation of the School, Atlantis University is not likely to flood. However, during periods of flooding, the University President or Executive in charge will remain in contact with appropriate authorities and will ensure students and employees are informed and advised of local conditions.

### **Closing the School as the Result of Severe Weather**

Only the University President or the Executive in charge has the authority to close the University. When this action is taken, the President will ensure notification is released to the University Community – students, faculty, staff, and the general public. In addition, it will be posted on the University website, Online Platform, Social media channels, so that information about University Closings is broadcasted.

### **Self-Determination Policy**

● Main Campus – AU Downtown  
1442 Biscayne Boulevard  
Miami, Florida 33132

● Satellite Campus – AU University Park  
1011 Sunnybrook Road  
Miami – Florida 33136

No student will attempt to attend class and no employee will report to work if, by their opinion or by the warning of law enforcement officials, travel conditions in their area are unsafe (or if other circumstances would place their lives/health in jeopardy).

## EVACUATION PROCEDURES

### Emergency Evacuation

During an emergency evacuation, each faculty is responsible for the safe and orderly evacuation of his/her class. Faculty members not in class but in attendance or at office hours should assist with any evacuation problems that may arise. It is the instructor's responsibility to prevent panic, control traffic, and provide calm leadership. The following guidelines should be observed:

- Instructors should know the shortest route from the classroom to the nearest exit.
- When the need to evacuate the building arises, the class should be directed to move single-file through the nearest exit and well beyond the building to an area of safety.
- The instructor should be last to leave in order to check that all students are out of the classroom and to close the door.
- Never return to the building until instructed to do so by the appropriate authorities.

## TIMELY WARNINGS AND CRITICAL INCIDENTS

Atlantis University provides timely warnings (called "AU Alerts") to the University community when a significant criminal incident occurs within Atlantis University and represents a serious or continuing threat. Decisions to disseminate a warning will be decided on a case-by-case basis in light of all the facts surrounding the crime and the continuing danger to the University community. The purpose of the warning is to aid in the prevention of similar crimes by alerting the community about the incident and providing information on the actions people can take to diminish their chances of being victimized.

The type of information presented in the warning will vary depending on the circumstances of the crime and will be distributed as soon as pertinent information is

available so that the warning is a preventive tool, not solely a description of the incident. If there is certain information that could compromise law enforcement efforts, it may be withheld from the timely warning notice.

Cases involving sexual assault are reported immediately after the incident occurred, in which case there is no ability to distribute a "timely" warning notice to the community. Thus, whether to issue a Timely Warning Notice based on a reported sex offense will be determined on a case by case basis depending on when and where the incident occurred, when it was reported, and the amount of information known by Atlantis University.

Timely Warning Notices will be issued to students and employees in a manner that is timely, that withholds the names of the victims as confidential, and in a manner that aids in the prevention of future similar crimes.

Timely Warning Notices are distributed to the Atlantis University community via blast email and are published at the University's Annual Security website section and other conspicuous locations indicating the date of the publication with frequent updates as necessary.

### **Criteria for Counting Referrals for Disciplinary Action**

#### **Criteria for Counting Disciplinary Referrals**

The disciplinary process at an institution can be called disciplinary action, mediation, judicial process, or some other term. The referral can, but does not have to, originate with the police. A disciplinary action can be initiated in an informal as well as a formal manner. It can include an interview or an initial review of names submitted to an official.

**Enforcement:**

The primary sources on campus that enforce the alcohol and drug policies are the employees. The Administration of the University handles interventions and/or sanctions. It is the primary responsibility of the Review Committee which will recommend any necessary sanctions. For 2020-2021 and 2019-2020 no referrals were made to the Disciplinary Review Committee for Drugs and/or Alcohol violations.

Atlantis University had no first offenses that were reported to Campus Security for drug and alcohol.

**Handbook and AU Catalog each year:**

1.   - b. Maintenance of a drug -free workplace
  - c. Drug counseling and rehabilitation programs
  - d. Possible penalties for drug abuse and rehabilitation violations.

**Health Risks and Effects:**

Alcohol and drug usage causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive

acts, including domestic violence and date rape. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. Repeated use of alcohol and drugs can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Long term consumption of large quantities of alcohol and drugs, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

### **Resources for Assistance:**

All students and employees are encouraged to seek early help if they feel they have a problem with alcohol and/or other drugs, and to learn how to assist others with substance abuse problems. With early assistance it is less likely that serious consequences will result from an alcohol or other drug problem. There are resources on campus and in the community for assistance. Questions should be directed to Administration.
