

2024 Graduation and Employment Rates

Atlantis University is required by the U.S. Department of Education and its accrediting agency ACCSC –the Accrediting Commission of Career Schools and Colleges to report on the graduation and placement rates of our graduates. The data reported is obtained following specific guidelines as set forth by the institution's regulatory agencies.

Graduation rate → The University's official graduation rate for each cohort and for the program for the reporting period. The graduation rate computes the percentage of students who graduate from a degree program within 150% of the stated program's length. Graduation rates exclude students under the following categories: death, incarceration, active military service, the onset of a medical condition that prevents employment, or international students who are enrolled on a basis of a student or work visa and are ineligible for sustainable employment in the United States post-graduation.

Employment rate → The University's official rate of graduate job attainment for each cohort and for the program for the reporting period. The institution's official rate of employment is that which is used to determine compliance with accreditation requirements. The employment rate considers the following:

- Available for Employment: The total number of students available for employment.
- Graduates – Further Education: The number of graduates that continue on with education in an accredited postsecondary institution on at least a halftime basis.
- Graduates – Employed in Field: The number of graduates employed in jobs for which the program trained them.
- Graduates in Unrelated Occupations: The number of graduates employed in jobs not related to the training obtained from the institution's program.
- Graduates Unemployed: The number of unemployed graduates.
- Graduates Unknown: The number of graduates for which no information about employment or unemployment is available.

For more information about how Graduation and Employment rates are obtained, please visit ACCSC' website at www.accsc.org.
